Backyard Buddies Bed & Breakfast Seed Mix

This seed mix will provide valuable food and shelter for your Backyard Buddies (both pollinators and predatory insects). It contains a blend of annual and perennial flower seeds including red clover, lucerne, anise, alyssum, dill, caraway, coriander, cosmos, buckwheat, baby's breath, marigold and Queen Anne's lace (seasonal variation of mix may occur).

Growing Instructions

Can be grown Australia wide and will grow best in full sun. Seed should be sown direct into garden beds and veggie patches. Alternatively sow direct into large pots near plants which are susceptible to insect attack.

Seeds are best sown in spring and autumn. Plant seeds 5mm deep and water-in with **eco-seaweed** (or **eco-hydrate** if planting into very dry soils) and keep moist. Germination occurs in 10-14 days.

This packet will cover approximately 10m².

eco-seaweed, eco-hydrate and the Backyard Buddies, OCP drop and eco-organic garden devices are trade marks of Organic Crop Protectants.
